

## ADVISORY SERVICES

## CONSULTING

The risk landscape has changed significantly over the years and will only continue to evolve.

Having a trusted advisor to develop new and innovative approaches to tackle emerging risks is more critical than ever. Risk Cooperative's risk advisory practice helps organizations better manage risk in an increasingly complex and uncertain environment. We enable organizations to proactively manage and mitigate risks across a wide range of insurable and non-insurable risks.

We're experts at using data and analytics to identify risks, assess potential losses, and estimate the overall business impact of complex enterprise risks. Our unique Resiliency360° methodology results in innovative and resilient risk management strategies. We consider every facet of a client's business, financial resiliency and overall strategic objectives, then customize our approach to match their needs.

The Resiliency360° model enables clients to leverage our expertise as an outsourced risk management team—or on a project basis—to meet key objectives. Our team has extensive experience working closely with clients of all sizes and within many disparate industries to design and implement risk management programs across the full spectrum of risk.operating continuity.

### Cyber Risk

Risk Cooperative serves organizations across a wide range of industries to build up their cyber resiliency, and implement pro-active cyber risk management strategies using a multi-faceted methodology.

### Enterprise Risk Management

Risk Cooperative works with organizations to develop and implement ERM strategies that are designed to align risk management activities with key business objectives.

### Business Resiliency

Risk Cooperative provides a measured and pragmatic approach to help organizations identify potential vulnerabilities and build up their overall business resiliency against natural disasters or man-made risks.

### Crisis Management

Our suite of solutions help organizations more accurately quantify reputational risk, build a proactive crisis management and evaluation framework, and implement mitigation techniques.

### Risk Benchmarking

Our risk assessment offerings provide organizations with a strategic review of existing risk management frameworks, mitigation strategies, and analysis of potential risk exposures.

### Risk Mapping

Risk surveys identify and analyze risks in an organization and provide decision makers with ongoing benchmarking and risk signaling, giving insights on where risks may be hiding, their likelihood, and potential impact.
