

INSURANCE SOLUTIONS

CYBER RISK

As Cyber Risk increasingly becomes the most common threat, cyber risk insurance helps defray the costs of a breach and offers vital remediation and mitigation support during the recovery phase. Risk Cooperative understands that each organization has its own unique cyber risk profile, and an out of the box solution may not work. Our cyber specialist team has worked to develop a suite of cyber insurance and risk transfer solutions that can be customized to meet specific client needs.

Stand-Alone Cyber Insurance

SECURITY & PRIVACY LIABILITY COVERAGE | coverage for either a security wrongful act, privacy breach or security breach

SECURITY BREACH RESPONSE & ASSESSMENT | resources to respond to a cyber intrusion and analysis of systems following a security breach

MULTIMEDIA LIABILITY | coverage for damages arising out of a multimedia wrongful act

PRIVACY REGULATORY CLAIMS COVERAGE | coverage for regulatory claim arising out of a breach

PCI-DSS ASSESSMENT COVERAGE | coverage for amounts legally obligated to pay as a PCI DSS Assessment resulting from a security breach

CYBER EXTORTION COVERAGE | Reimbursement for cyber extortion expenses and payments directly resulting from a cyber extortion threat

BUSINESS INCOME INTERRUPTION | Coverage for income earnings loss sustained during a period of restoration resulting directly from a network disruption

REPUTATIONAL HARM LOSS | Coverage for reputational harm, earnings loss and/or expenses loss sustained during a period of restoration resulting directly from a network disruption

DIGITAL ASSET RESTORATION COSTS | Reimbursement for the restoration costs incurred due to the alteration, destruction, damage, or loss of digital assets

Technology E&O

Specifically tailored to address the unique exposures presented by technology companies, this coverage that protects against third-party lawsuits by a customer(s) following discovery of an error or omission in the technology.

Cyber Warranty

Our expertise in the cybersecurity domain enables us to vet the efficacy of cybersecurity platforms and MSSPs, and then design a customized cyber insurance program to work alongside their offering. This program is a highly customized and consultative engagement designed to integrate seamlessly into our partners business model. Our cyber warranty and indemnification program enable players in the crowded cybersecurity market to differentiate themselves from competitors and deliver added value for their customers.

Intellectual Property Infringement

Protection for intellectual property infringement that arises after advertising your services in print, online, or on social media.

Cyber Stop Loss

For organizations, governments, states or municipalities requiring a customized higher limit program, Risk Cooperative is able to design cyber stop loss solutions. These are designed to work with an organizations risk appetite and threshold as it relates to cyber risk, taking into account the overall cybersecurity framework and technology stack into the underwriting determination. This approach enables us to design coverage for even the most challenging industry clients.
