

Cyber Risk

Risk Cooperative's proprietary cyber insurance solution, backed by certain underwriters at Lloyd's, is designed to provide comprehensive protection against rampant cyber threats. Despite the increase of cyber risks, stand-alone cyber insurance, which responds to events on a first-dollar basis, represents less than 10% of the market. Part of the challenge is access and affordability of comprehensive cyber coverage. We have the right solution to provide peace of mind, business continuity, financial protection and incident response capabilities.
